

As a user, I need to be able to enter names for people and new names so that I can split the bill with these people.

- ☐ Add names into the list by tapping on the “Peter Parker” text field
- ☐ Delete names from the list by swiping and clicking “Delete”
- ☐ See Names in a different view (test view) after pressing next button

As a user, I need to be able to take a photo of the receipt so I can split it at the same time I receive the receipt.

- ☐ Click “Take a Photo”, which loads up the camera
- ☐ Submit the photo
- ☐ See photo in the same view and an “Upload Photo” button

As a user, I need to select a photo from my camera roll so that I can split an old receipt.

- ☐ Click “Choose Photo”, which loads up the camera roll
- ☐ Select the photo
- ☐ See photo in the same view and an “Upload Photo” button

As a user, I need to be able to see the list of items from the photo of my receipt so that I can confirm everything is correct.

- ☐ After uploading the photo, add the names in the Names view
- ☐ Click the button to go to the Receipt view
- ☐ All items from the receipt should be displayed as a list

As a user, I need to be able to drag people into their items so that I can assign each person to at least one item on the bill.

- ☐ Drag and drop the name into each item, print in console the item’s ppl list to see whom the item belongs to on the drop
- ☐ Only allow a name to be displayed once per item (no duplicate names)
- ☐ Have a view where each person’s name has the total cost of items they were dropped into

As a user, I need to be able to add or remove items so that I can modify the end list.

- ☐ Create a new view to add an item to the receipt list
- ☐ When user enters data into the text fields (item name and price), add the item to the receipt items list and update subtotal
- ☐ When the item has been added, clear the text fields and notify user that it's been successfully added
- ☐ Go back to Receipt view and see that it's been added
- ☐ Swipe item to remove the item and update subtotal

#### **Task definition of done**

- ☐ Created a new branch for task
- ☐ Code runs properly with new changes for task
- ☐ Verify task listed is functional via manual or automated testing
- ☐ Make a PR with the changes and request a code review
- ☐ Once code review passed and merged mark completed
