

Sprint 4 Report

| | |
|--------------|----------------------------|
| Product Name | Receipt Splitter (TabDrop) |
| Team Name | Brooke and Co. |

Actions to Stop Doing

Stop saying to have a meeting at X time, set up a meeting in google calendar.

Actions to Start Doing

Communicate more in terms of texting and through meetings. Set up meetings to discuss system requirements.

What went well / Keep doing

Using a different branch per feature definitely improved a lot of our problems we had. We would run into different merge issues and now we have been masters of merging and rebasing our branches.

Communication has improved with understanding each other's code since the last time.

Made 2 different repos for frontend and backend. This way frontend people do not have to mess with backend changes and they are independent of one another

Well paced sprint for once, we measured scope well / we felt comfortable with our technologies for once.

Code reviews have been helping code quality in our code base, keep doing this to ensure good code.

Work Completed/Not Completed

| User Story | Completed? |
|---------------------------------------------------------------------------------------------------------------------------------|------------|
| As a user, I need to be able to see the list of items from the photo of my receipt so that I can confirm everything is correct. | Yes |
| As a user, I need to be able to drag people into their items so that I can assign each person to at least one item on the bill. | Yes |
| As a user, I need to be able to add or remove items so that I can modify the end list. | Yes |
| Deploy backend through heroku so phone can access backend API | Yes |
| UI Touch ups | Yes |

Work Completion Rate
